

## **Family Celebrations Index (FCELEBI)**

The Family Celebrations Index (FCELEBI), developed by Hamilton McCubbin and Anne Thompson (1986a), is designed to assess the scope and depth of celebrations in families; activities which give meaning and value to family life. Celebrations are those special events (i.e., birthdays, Mother's Day, graduations, promotions, etc.) which are marked by the family in a particular way.

Example Items: We celebrate these special moments:

\*Children's birthdays

\*Yearly major holidays (i.e., 4th of July, New Year)

\*Special surprises and successes (i.e., passed a test, good report card)
